

AUTISM ASSESSMENTS

WHICH ONE IS RIGHT FOR YOU?

Finding the best autism assessment for your situation is the crucial first step in the intervention process for both children and adults. WPS is proud to provide a variety of tools to help you better diagnose and create effective interventions for autism. Our assessments come in a variety of formats and languages, apply to a wide range of ages, and many can be scored online.

Our knowledgeable Assessment Consultants can help you choose the best assessments for your needs. Reach out to an expert at consult@wpspublish.com
